Office and Packing Grounds Located in  
East Part of the City  
Storage Building in the North Part of the City  
on C., B. & Q. Switch

## For Your Information

**Location**—This business was established in 1870, and has been under the same management, and in the same location as at present.

We are located in Southwestern Iowa, fifty miles Southeast of Omaha, Neb. and seventy miles Northwest of St. Joseph, Mo. and have good shipping outlets over the C., B. & Q., Wabash and K. & W. R. R's. For express shipments we have the Adams and Pacific.

**The Packing Season**—In the Spring we usually begin shipping about March 15, although a complete assortment of stock with the exception of heavy Shade Trees, Evergreens, Black Raspberries and Strawberries, is in frost proof cellars connected with C. B. & Q. R. R., which can be shipped at any time during the winter.

**Terms of Sale**—Customers ordering goods, should state whether they wish them sent by freight or express; also give routing directions. In case these instructions are not given, we forward to the best of our judgment, but in no case will we assume responsibility after consignment to purchaser.

**Terms of Payment**—Cash or security before shipment of goods, except with established firms, when, if unknown to us, satisfactory reference will be required before goods are forwarded. Orders to be sent C. O. D. should be accompanied by one-fourth cash.

**Prices**—Are limited to Spring 1908, and supersede all previous lists and are subject to change without notice.

**Caution**—We accept all orders upon condition that they shall be void, should any injury befall stock from frost, fire, hail, storms or other causes over which we have no control.

**Grades**—We grade carefully; in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern.

**Claims**—For deduction will receive consideration only when made within six days after receipt of goods.

**Packing**—Prices contained herein are net; cost of boxing and baling will be added.

**Certificate of Inspection**—will be furnished with each shipment.

**Our Guarantee of Genuineness**—While we exercise the greatest diligence and care to have our trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc. that may prove untrue to label, free of charge or refund the amount paid, it is mutually understood and agreed between the purchaser and ourselves that our guarantee of genuineness shall in no case make us liable for any sum greater than originally received for said trees, etc. that prove untrue.

## Apples—General Assortment

Apples make especially strong roots on our upland soil, and generally ripen up thoroughly in the Fall. We cut them back at one year and grow three years making a two year top and three year root.

## Root Grafts

It is of the utmost importance for the grower to know that the grafts he plants are right in every respect. While the price is, and should be, quite a factor in influencing the buyer, yet it is very essential to know that they are true to label, made from healthy material and properly handled.

We have been in the graft business for over thirty-five years, and believe that our experience is of value in this branch of the trade. Our men have grown up with us and have a knowledge of what the trade demands.

We will make grafts of any length or from any special grade of seedlings that purchaser may want and make price accordingly. Our Piece Root Grafts are made with six-inch scions, and three and one-half inch root. This is the kind we use in our own planting.

For the Whole Root Grafts we use a six-inch scion, and the entire seedlings, if desired, either straight or branched. All are wrapped with waxed thread, tied 100 in a bunch, properly labeled and packed in frost-proof cellars to callous.

We will appreciate your graft order, and will be pleased to have list of wants for prices at any time. Samples sent on application, and all inquiries promptly answered.
